# Terrybear

Terrybear Urns® designs beautiful and affordable urns that funeral industry professionals and families have come to know and appreciate. Each urn is individually handled; there is no mass production, meaning each urn is unique.

Terrybear brass urns are crafted by hand using a sandcasting process that is hundreds of years old. Depending on the design, an urn may go through as many as seven processes before inspection and packaging.

Each cloisonné urn, made with copper and enamel is also crafted by hand using a comprehensive and sophisticated process. For the full cloisonné range see pages 5-6.

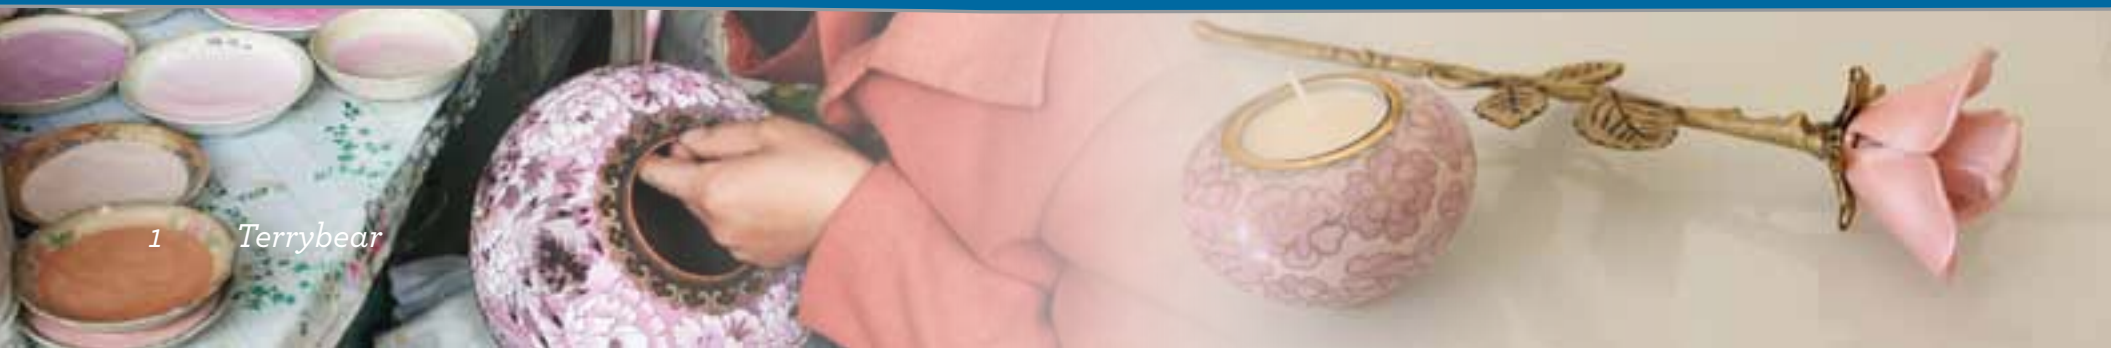

All Terrybear designs are ©1994-2016 Terrybear, Inc. Memory of a Lifetime and Terrybear are registered trademarks of Terrybear, Inc. Heart Keepsakes are patent protected.

## Cloisonné (copper/enamel)

Each urn is crafted by hand using a comprehensive and sophisticated process involving hammering of copper pieces to form the shapes. A large cloisonné urn can take up to 30 hours to complete.

Copper filigree is used to form delicate floral patterns and enamel is used to fill and develop rich shades of colour.

Cloisonné urns are gilded in gold to add elegance, and several high temperature heat processes are involved in creating these beautiful cremation urns.

Every farewell is the birth of a memory, which can be recalled by something tangible, personal and that can be kept close by.

Each piece is modelled by hand to fit perfectly in your palm. They are highly durable and easy to carry with you, which gives you the possibility to have your loved one accompany you whenever and wherever you would like.

## BY BER VAN REDEN (clay)

An elegant collection of ceramic urns, each piece is hand-crafted by skilled Dutch artist Ber van Reden. The crystals in the metallic coating form a unique pattern on each urn. The high-quality clay and intensive firing process ensure that, as long as these are cleaned regularly, they are **suitable to be placed outdoors or in a columbarium.**

NB: These urns are finished with an iron lacquer allowing them to be placed in an outdoor setting, as well as indoors.

During the firing process, fine lines can appear which is known as 'crackle'. This is an inherent characteristic of this product and in no way effects the quality of this product.

## FADELESS™ (clay)

There is a Chinese saying:  
"Gold has a price.  
Jun Yao is priceless."

These porcelain urns are  
made by using the ancient  
and famous Chinese Jun  
Yao production method  
from the Song Dynasty  
(960 - 1279 AD), a time  
when it was declared a  
"Royal Treasure".

These urns were designed  
to be touched. Caressing  
the irregular rims and  
bumps on the surface will  
add to your experience  
of 'feeling' the FADELESS  
connection you have with  
the loved one lost.

## Sustainable and Fair

It is of high importance to us that the products we offer are produced in a fair and sustainable manner.

The timber urns found on this page are made in Vietnam in fair conditions free of involvement with any child labour or exploitation of poor workers.

The timber is sourced from sustainable forest resources in the Darlac province of Vietnam, where eco practices include reforestation and Agri-Forestry projects - where the local population are able to graze animals in the plantation.
